Benefits of Steel Buildings

Check out this AIA-distributed article that addresses the impact of industry innovation on pre-engineered metal buildings, highlighting their role in boosting productivity, adaptability, and sustainability in the built environment. It explores how the use of efficient steel solutions contributes to long-term advantages, cost savings, prolonged lifespan, and heightened sustainability, all stemming from the material's inherent durability. The ultimate outcome is a positive impact on the planet's health.

AWARDS

The Northwest Shoals Regional Hangar in Muscle Shoals, AL won an ABC Excellence in Construction award! The celebration ceremony will be on December 7th!

Associated Builders and Contractors

Proud to Be a 2023 Accredited Quality Contractor

This may be Dunn's 22nd straight year being certified as an Associated Builders and Contractors Accredited Quality Contractor (AQC), but we never take it for granted.

Dunn Building Company has once again received the STEP Diamond Award and the Innovation Award for Steel Workers Head Protection Initiative, and we were named Safe Day Gold Award Winner from Associated Builders & Contractors. ABC's Safe Day Awards showcase companies with outstanding corporate Safety and Health plans and exhibit superior safety initiatives. We take pride in our team's dedication to safety!

**One team.
One community.
A whole lot of support.**

Employees from the Dunn Fabrication Shop were busy this past weekend as they gave their time and effort to construct a wheelchair ramp in Clanton, AL. The crew was rained on most of the day, but never rained out! A special thanks goes to all who volunteered their time. A big thank you goes to United Rentals for stepping up as well.
